

Facility Expansion Update:

We will be able to start utilizing the warehouse portion of the expansion by 5/15/08.

Expansion adds another 28,205 sq.ft. that provides additional space for clean room molding, QA, & warehousing.

It is designed with 12 skylights to increase natural light on the mezzanine and in the warehouse, and should help reduce energy costs.

A stair tower allows easier access to the roof for maintenance.

Employee Updates:

Please join us in congratulating Karen Klemmer on her promotion to Regulatory Affairs Manager, as well as Jackie Barrett for her promotion to Document Control Specialist.

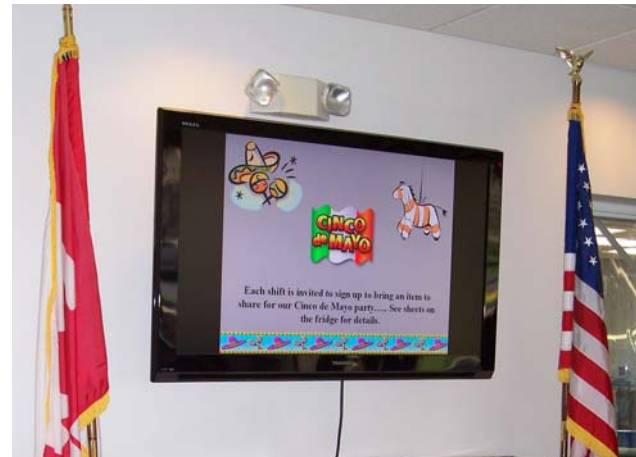

We would also like to welcome back Steve Davis, who re-joins our warehouse receiving team.

5S Lean & Employee Awareness all in one!

Jack Bertsch, Polymer’s owner and President, bought a large flat screen TV out of his own pocket, and had it mounted in our employee kitchen.

The idea is to use this TV (and not the tables/fridges) to convey important information to fellow employees.

It is currently running presentations to advise of customer visits, audits, new customers and current projects, continuous improvements, part/quality issues, fun upcoming events or holiday celebrations, marriages, employee birthdays and milestones, etc.

2008 Facility Closing Schedule:

May 26th

July 4th

September 1st

October 13th

November 27th & 28th

December 24th— December 30th

January 1st & 2nd, 2009

Please arrange your orders & shipments accordingly.

Please help Polymer move towards “GOING GREEN”....

If your team can and will accept copies of documentation via email instead of actual paper copies through faxes and mail, please contact me at the address below so that I can collect your information and address the PCI team. We want to make sure the areas we enhance in our systems benefit you the customer, and the environment.

Thank you! Wendy Bertsch
